24a. Special Attributes such as environmental attributes (e.g. recycled content, energy efficiency, and/or reduced pollutants).

Zero emission electric powered lift trucks – Yale is one of the largest volume producers of zero emissions electric lift trucks in the North American market.

Environmentally friendly ICE powered forklifts - Yale has introduced spark-ignited models that already meet or exceed CARB 2010 (California Air Resources Board) requirements. According to testing reviewed by the EPA and the California Air Resources Board (CARB), our lift trucks rate among the lowest in exhaust emissions in the industry.

Air quality enhancement – Yale has made great strides in the area of painting/coating, which is our significant potential environmental impact. Nearly a decade ago, we began using low VOC (Volatile Organic Compound) paints. We've also gone a step further and have begun implementing powder coating operations, in order to eliminate VOC's and waste.
